EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Lockenour on 1/4/05.

The application has been amended as follows:

✓ Claims 54-59 and 64 have been canceled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Upon reconsideration the prior art of record does not provide motivation to produce an antibody with rodent CDRs and old world ape frameworks and human constant regions. Vihj-warrier et al does not teach or fairly suggest using rodent CDRs in chimp frameworks. The art suggests chimp-human chimeras. The prior art of Queen, Adair, and Co teach humanization with human frameworks and as such there is no motivation to use primate frameworks and human constant regions.

Art Unit: 1642

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
